

Remixed

This mask can be made as freaky as you want it, and can be folded up into a completely non-freaky hat for when you don't feel like scaring the socks off everyone who sees you! Crochet around the eyes and mouth with matching or contrasting yarn - the edging can help up the freak factor if you want it to. Worked top down in any weight, the gauge is measured as you work to determine stitch count. It's custom sized, holes placed perfectly by slipping it on as you work (if it's a gift knit, you can figure out placement by measuring), then the ribbed neck becomes the hat brim.

This pattern is a part of Lee Meredith's Remixed collection, which is all about making and using recycled yarns, with knit accessory designs meant to work well with those unique yarns, due to their flexible gauge and sizing.
